November 20, 2023

Dear Parents/Guardians of Division 8 & 18,

To support our science curriculum in a fun and hands-on way, we have invited a scientist to our classroom! **High Touch, High Tech** will be visiting our school on Wednesday, November 29th, to provide students of Divisions 8 and 18 with a 75 minute science workshop!

Students from Ms. Cozens and Mme Mari's classes in Grade 3 will participate in the workshop, *Matter Meltdown!* This curriculum focused program will provide students with the opportunity to explore how things heat up and cool down and to find out what makes things sink or float. Students in Grade 2 will participate in the workshop, *Water World!* This program will explore the importance of water and how it affects life on Earth.

High Touch High Tech has been fueling the imaginations of children everywhere since 1994, by providing FUN, interactive, hands-on science and nature experiences for children.

The cost for this workshop is \$10.00 per student.

Please complete the form below and return to your classroom teacher by Friday, November 24th, 2023.

Thank you for your assistance in making this presentation possible.

Mrs. Cozens
Mme Mari
Classroom Teachers
